

Sansan Integration Brochure

Unify and Centralise all business contact information into Sansan and connect these crucial data across your organisation's tools and platforms.

Get more work done faster, effectively.

sansan

The Single Source of Truth for your organization

Centralise all digital and physical business contact information in Sansan and sync them across your CRM, tools and platforms for your entire organisation.

The most accurate contact information comes from the moment you officially exchange a contact with someone. With Sansan, you will be able to digitise both physical and digital contacts to store, share and manage these contacts effectively within your organization.
